Bengaluru, Karnataka, India

PROFILE SUMMARY

Final-year Electronics and Telecommunication Engineering student transitioning into software development. Hands-on project experience across embedded and hardware systems (UAV, ROV, OAV), combined with a growing foundation in Java, Spring Boot . Internship experience at Hindustan Aeronautics Limited (HAL) with exposure to precision engineering and quality assurance practices.

EDUCATION

Dayananda Sagar College of Engineering <i>BE - Electronics and Telecommunication Engineering, CGPA: 8.32</i>	<i>Bangalore, India</i> 2022 - 2026
Sri Chaitanya PU College <i>PCMB Percentage - 80.6%</i>	<i>Ballari, India</i> 2020 - 2022
Nandi School <i>1st - 10th Std, Percentage - 94.5%</i>	<i>Ballari, India</i> 2016 - 2020

SKILLS SUMMARY

- **Languages:** Java, Python
- **Web Technologies:** HTML, CSS, JavaScript
- **Frameworks:** Spring Boot, Hibernate
- **Database:** SQL
- **Tools & Platforms:** Git, Jupyter Notebook, VS Code, Windows, Arduino

PROJECTS

ROV - Remotely Operated Vehicle for Underwater Surveillance

- Built an underwater ROV equipped with a waterproof camera, thrusters, and remote controls to perform surveillance and exploration tasks. Role: Control systems designer and programmer.
- Engineered the watertight enclosure and handled wiring and signal routing for underwater conditions.
- Programmed microcontroller logic for motor control, lighting, and video signal transmission, focusing on stability in underwater movement and real-time operator feedback through visual monitoring.

Music Website

- A responsive music streaming interface with playlists, album art layouts, and a clean playback UI built using HTML and CSS.

Puma Website Clone

- A pixel-focused clone of the Puma e-commerce landing page, recreating product grids, navigation, and responsive layouts.

Student Registration Form

- A validated, accessible student registration form with structured fields, clear layout, and form-focused UX design.

VOLUNTEER EXPERIENCE

- **Volunteer - IEEE Event:** Contributed to event organization and logistics, assisting with session coordination, registration, and on-site support.
- **Departmental Exhibition Setup:** Assisted in the planning and setup of a departmental exhibition by arranging displays, managing materials, and supporting smooth execution.
